

Helpfiles > "System" menu > "Devices" window > Milking station > "Milking" > "Reattachment"

"Reattachment"

"Reattachment"

Item

*"Max reattachment attempts (per teat)":*

*"Do not reattach teatcup if current yield exceeds this percentage of expected":*

*"Shower teat cup after kick-off":*

Description

Enter how many times the robot arm should try to reattach a teat cup.

Enter when the system should not try to reattach a teat cup.

Check the box if the system should clean a teat cup after it has been dislodged.
